5
distance from the axis of the flows, ρ/ℓ
tensor rule
two at rest
two at $\pm 0.6c$
one at $0.6c$
(b) which rule
tensor, exact
tensor, linear
energy density
lab density
rest density
read: $R = 2.401 \pm 0.053$
prediction of the rule
1.0
1.5
2.0
2.5
$R = A(0.6c)/A(0)$
