$k\ell_k$
conformal $\mathcal{A}$ (EH 6): $k\to 0$ gives $6\times 1.00005 \;=\; 6.0003$
mixed $\mathcal{B}$ (EH 8): $k\to 0$ gives $8\times 0.99790 \;=\; 7.9832$
optical $\mathcal{C}$ (EH 2), at $kT=8$: $k\to 0$ gives $2\times 1.00118 \;=\; 2.0024$
